ABOUT PROJECT ACCESS

Project Access Resource Centers
Education. Engagement. Empowerment.

OUR APPROACH

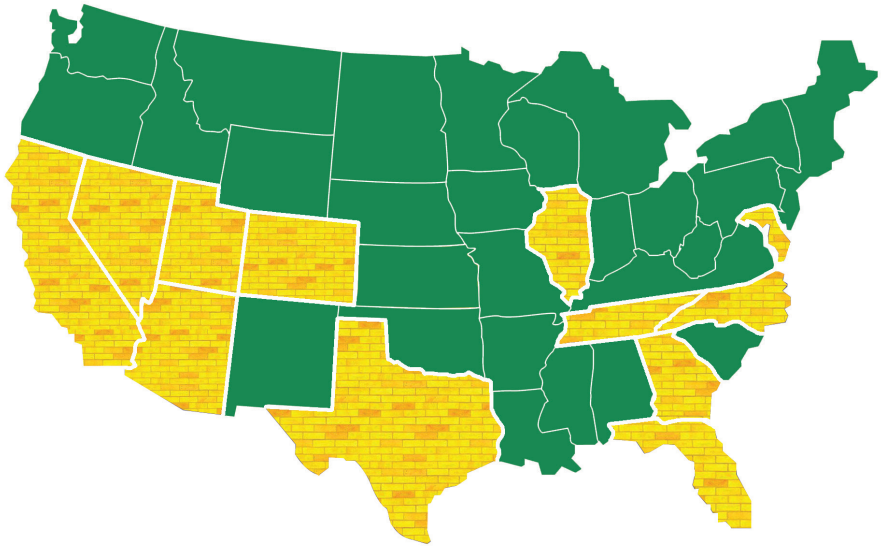
Since 1999, Project Access has partnered with housing developers across the country to establish and operate permanent Family & Senior Resource Centers on-site, that become one-stop-shops for families to gain the tools, knowledge, and opportunities necessary to stabilize their households and reach their full potential.

We offer a robust combination of services—programs and resources tailored to the unique needs of each community—both directly and through partnership with local organizations that offer residents specialized services.

OUR REACH

Project Access operates resource centers in the following states:

Arizona
California
Colorado
Florida
Georgia
Illinois
Maryland
Nevada
North Carolina
Tennessee
Texas
Utah



OUR IMPACT

In 2018, close to **16,000** residents were served with health, education and employment services.

Over **5,500** youth participated in constructive out-of-school time activities building their academic, social and emotional skills.

By 2020, Project Access will serve over **20,000** residents across the country.
