The Third Annual Project Access Keys to Success Awards Dinner will honor Ranney and Priscilla Draper.

Project Access is a nonprofit 501c(3) organization that assists families and seniors living in affordable housing achieve greater self-sufficiency and independence through access to education, health and social services. Project Access was founded in 1999 and has continuously delivered programs and services to its clients by way of family and senior resource centers established where they live, as well as through providing outreach and referral services. In 2007, Project Access served more than 7,000 individuals of working families and seniors living on fixed incomes who resided in affordable housing communities.

The Third Annual Keys to Success Awards Dinner will again honor members of our community for their commitment to helping people in need, both personally and professionally, and for their dedication of instilling "giving back" in others. Our First Annual Keys to Success Dinner honored Legendary Sports Agent Leigh Steinberg, and the Second Annual Keys to Success Dinner honored Bob Campbell, President of CT Realty; last year, we net an impressive approximately \$190,000 toward programs and services that help forward the lives of disadvantaged children and adults.

This year, Project Access is proud to honor Ranney and Priscilla Draper for their contributions in the community.

Please join me in supporting this worthwhile organization by becoming a sponsor
