Skylene is a young adult who supports her mom at Whispering Pines. With an income to barely make ends meet, life has been stressful keeping up with rent and other bills. Skylene wanted a better future for her family and turned to Project Access for guidance.

After visiting the Resource Center, she knew she was in a space where she could really learn to maximize her potential. She worked one-on-one with the Resident Services Coordinator to build her resume and practice her interviewing skills. She also used the computer lab to search and apply for jobs.

With her dedication, Skylene secured a job as a caregiver and has more financial freedom than before. Skylene continues to attend events and encourages other residents to take advantage of the “hand up” Project Access offers.
