Leslie is a bright, young 5th grader with aspirations to be someone great one day. In a household with four other siblings, it was hard for her parents to dedicate time to help each child with their homework. For Leslie, she struggled in math.

When Leslie joined the After School Program, she loved having a quiet and safe space where she could focus on her work. She could rely on Project Access and volunteers to help her if she was ever stuck on a problem.

With a lot of dedication and hard work, Leslie’s grades have improved significantly. She also was accepted into the Gifted and Talented Education Program for the new school year.
