Aster is a senior who lives alone at Keller Plaza. She connected with the Resident Services Coordinator and shared that aside from church and the market, she doesn’t leave her apartment too often. She expressed that she is lonely at times. Seeing that others shared the same sentiment as Aster, Project Access developed senior focused programs like art classes and BINGO. Aster took advantage of these programs and also attended Second Language Acquisition workshops to improve her English. Now more confident in English, she has used that to bridge new connections with her neighbors. Today, Aster feels deeply connect with her community. She now understands the health benefits of maintaining an active lifestyle and encourages her neighbors to do the same.
